Experience

2024
Actimage

• **Backend Developer**
As a back-end Drupal developer at Actimage, I was responsible for optimizing and maintaining French government websites to ensure their performance and security.

2023 - 2024
Kimmel Group

• **Full Stack Developer**
I developed an intranet in order to enhance collaboration and information sharing between the group's departments and sites.

2022 - 2024
Reduco2

• **Front-end Developer**
Co-founded a startup and led front-end development for a platform that tracks offers, calculates carbon impact, and adds new selection criteria.

2021
Wollenschneider

• **Full Stack Developer**
Created a complete website showcasing the company, its various activities, a contact page, a history page, and individual pages for each office. wollenschneider.fr

Education

2018 - 2024
Epitech

• **IT Expertise at Epitech**
Master's degree (Bac +5) in Information and Communication Technologies, with a focus on practical IT expertise.

2015 - 2018
High school

• **Bilingual German high school diploma**
General high school diploma with a specialization in Economics and Social Sciences, completed in a bilingual German class, awarded with the distinction "Fairly Good"
